

I want the owners of TV and Radio decimated, that is, I want THEIR OWNERSHIP cut down to tenths of a market. NO OWNER MAY OWN MORE THAN A TENTH OF THE MARKET! By "market," I mean that no issue of theirs in print, on broadcast tv, on cable tv, may cover any more than 1/10 of their hearing, reading, seeing public. The Seattle area --- my hometown --- gets on broadcast and cable TV programs via many NBC derivatives: KING TV, KING RADIO, KONG TV, NBC, MSNBC, CNBC, which, ESSENTIALLY covers all the programming I can buy with my Extended Basic Cable. In a word, NBC is controlling all I can hear and see! All of this programming is a repeat of a repeat of a repeat. I CANNOT LIBERATE MYSELF from NBC! Of course, there is another controller of my market: FOX TV, their broadcast offerings are so salacious as to offend my sensibilities. Their cable offering, Fox News Channel is so right-wing I cannot temper it with my own values. I never tune in. I am very, very, very, very, very, very angry that I spend "fresh" dollars every month for the same old, same old, same old, same old, same old, same old, same old, same old, same old, same old stuff/programming on "extended" basic cable. I WOULD CANCEL the whole "basic, extended service" if only I could get C-Span I and C-Span II. (I WOULD SETTLE FOR C-SPAN I.) AND THE PRICE! It goes up, and up, and up and up and up and up and up, and up, and up, and up, and up and up, and up, and up, and up, and up for the same old programming, same old programming, same old programming, same old programming, same old programming, same old programming, same old programming, same old programming, same old programming. FIX THIS! Either cut the cost by bringing in other, COMPETITIVE owners (not religious TV, not sports TV) to provide programming to us that is new and different and gives a new viewpoint or allows us to pay a MINIMUM \$12 a month just to secure the the signal, which is the case in my apartment building. HELP! HELP! HELP! Help! Help! Help!
